💼 PROFESSIONAL EXPERIENCE

Jul 2022 – Sep 2022
Saudi Arabia

Like Pro, *web developer (freelance work)* ⧉
Designed and developed a modern, user-friendly website front-end with an intuitive admin panel.
- increase in user engagement by implementing best practices for UI/UX design, responsive design, and accessibility.
- Utilized HTML, CSS, Tailwind CSS, CSS, JavaScript, and Alpine.js to create a scalable, flexible website with error-free functionality and optimized performance.
- Collaborated with the back-end developer to implement various website functionalities.

Dec 2021 – Jan 2022
Algeria

Magicoon, *front-end developer (freelance work)* ⧉
Successfully developed and implemented the front-end of Magicoon Company's website.
- Resulting in increased website traffic, reduced bounce rate, and improved user engagement.
- Transformed the UI design into a pixel-perfect website, ensuring that the final product matched the original design in every detail.
- Optimized website performance and user experience through efficient coding practices and collaboration with the team.

📁 PROJECTS

Mar 2022 – present

Yasser-Dev-Blog ⧉
Designing and developing my personal blog app that includes a range of advanced features!
- I used MDX and implemented both server-side rendering and static page generation using Next.js, to improve the app performance and user experience.
- I included SEO best principles to increase visibility.
- The app also features a dark mode using the DarkReader API, table of contents using Intersection observer, and email subscription functionality using Mailchimp, all of which enhance the user experience and set it apart from other blogs.

Social media web app
Created a fully functional social media web app using Laravel framework Included important features such as
- signup and login functionality, the ability for users to update their avatars, the ability for users to create posts and follow each other, email verification, and search functionality.
- use caching to improve performance, scalability, and user experience.
- Add API authentication using Sanctum for enhanced security.
- Used Docker to deploy the app and hosted it on a VPS for improved scalability and performance.

🎓 EDUCATION

Sep 2019 – Aug 2023
Sidi Bel Abbes, Algeria

Bachelor's Degree in Computer Science, *Djillali Liebes University* ⧉
I have expertise in math, computer science, and software engineering with strong programming skills in Java, Python, and C. I'm also experienced in database management, software testing, and project management, and possess problem-solving, critical thinking, and collaboration skills needed for software engineering.

🧠 SKILLS

Front-end: *(Html, css, javaScript, tailwind css, sass, bootstrap, react,redux,typescript, next.js)*,
Back-end: *(node js, express js, php, laravel, mysql,firebase)*,
Soft skills *(Communication, Collaboration, Time management, Problem-solving, Attention to detail, Adaptability, Creativity)*,
Other *(Seo principles, web scraping, api development and integration, oop, solid principles, design patterns, basic understanding of network layers, network/web security and http protocol, wordpress, git, github)*

HCIA routing and switching (DATACOM) ↗

With HCNA certification, you demonstrate a basic understanding of small and medium-sized networks, including general network technologies, and the ability to assist in the design of small and medium-sized networks and implement the designs using Huawei routing and switching devices.

One million arab coders initiative (Android Track with java) ↗

Through the One Million Arab Coder track of Java and Android Development, I gained knowledge and skills in Java programming, including object-oriented programming concepts, and learned to develop Android applications using Android Studio and the Android SDK.

HCIA Security

HCIA Security Course provides engineers with the basic ability to configure and maintain small and medium-sized enterprise information security solutions, and have the ability to achieve basic network security for SMBs and meet the basic needs of a variety of security applications.
